

These high quality diaries and notebooks provide useful information for every oil and gas industry professional, with their unique 40 page, full colour, offshore oil and gas field atlas, covering operational and future field developments for: the US Gulf of Mexico, Trinidad & Tobago, Brazil, the North Sea, Norway, the Mediterranean, the Middle East, North West Africa, North Africa, West Africa, South East Asia, Australia, New Zealand, India & Sri Lanka, the Arctic, North East Canada and China (Bohai Bay). A high visibility corporate gift, which is both useful and can be customized to ensure your company name is seen time and again in high profile meetings!

The Field Atlas is produced using Infield Systems' highly acclaimed Offshore EnergyGateway Mapping System and Offshore Energy Database and includes details on: oil and gas fields, fixed and floating platform facilities, pipelines and geographic information on: water depths, licence blocks, coastlines and countries. The maps also include insets that highlight future field developments.

Diaries and notebooks can be supplied as an individual unit from stock or in multiple unit quantities, which can be customized to suit your company's corporate branding.

Standard Format (notebooks and diaries):

- Dark blue leather effect padded front cover with gold embossed title piece
- Size - 210mm wide x 265mm high (American Quarto Size)
- 40 page Infield full colour world offshore oil and gas field atlas

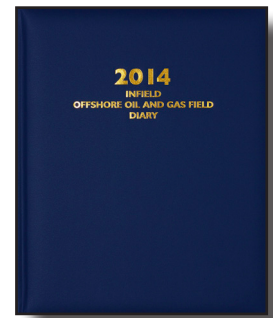

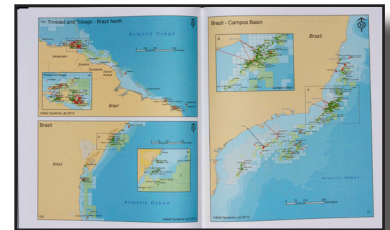

The Infield Diary has the following additional features:

- Available in either week to view or page a day formats
- Printed front endpaper with 2013 year planner
- 1 page with US time zones
- 2014 year planner
- Useful facts and figures, dates, conversion tables and worldwide time zones
- Ribbon bookmark

The Oil & Gas Field Atlas:

The 40 page atlas is included within each copy of the Oil & Gas Field Diary or Notebook. The atlas is comprised of a legend and title page and 39 pages of full colour oil and gas field location maps. Each map covers a specific geographic region;
