The Latin American region contains some of the world’s largest hydrocarbon reserves. Whilst the largest proportion of the region’s reserves are located in Venezuela, Mexico has significant (but mature) shallow water deposits and Brazil arguably holds the greatest production potential with its vast deepwater hydrocarbon deposits in the Santos and Campos basins. The Latin American region is dominated by National Oil Companies (NOCs) which include Petroleos de Venezuela (PdVSA), Petroleos Mexicanos (PEMEX) and Petróleo Brasileiro S.A. (Petrobras).

Brazil’s NOC Petrobras is in the fortunate position of owning the mineral rights to some of the largest deepwater hydrocarbon deposits in the world. However, exploiting these remote, ultra-deepwater reserves is a capital intensive task. In March 2013, the NOC announced its 2013-17 investment plan, with the budget unchanged from the previous 2012-16 plan. The key difference was the increase in spend on drilling, subsea, platforms and vessels by 4% to account for 62.3% of planned total capital spend.

Infield Systems has just released the latest edition of its Offshore Latin America Oil and Gas Market Report To 2017. This latest report provides a detailed forecast, including oil and gas capital expenditure projections and number of installations, for each of the main sectors in the offshore oil and gas industry, including: fixed platforms, floating production systems, subsea production units, pipelines and control lines; whilst also providing an overview of the demand and supply for vessels in the Latin American region, as well as an assessment of potential deepwater activity.

The third largest destination for offshore Capex is expected to be Venezuela. Here, state operator PDVSA retains a stronghold within the industry, although Infield Systems expects operators Eni, Repsol, Chevron and Statoil to also make investments offshore Venezuela during the forthcoming five years.

Overall, Petrobras is expected to hold a 76% share of expenditure within the Latin American region over the 2013-2017 period, whilst a further 30 operators are expected to direct Capex towards the Latin American offshore market during the period. OGX was expected to be the most significant non-NOC operator, although with the company undergoing significant financial difficulties over the last year, the strength of OGX’s position within the region’s future offshore market remains uncertain. Among foreign operators, Infield Systems expects Andarko to lead capital expenditure, with the ultra-deepwater Wahoo field, located within the Campos Basin, expected to be the sole destination for the Independent’s expenditure during the 2013-2017 timeframe. Key IOCs include Shell, with its largest field being Zaedyus offshore Guinea (French Guiana) and Total, expected to direct investment towards its Vega field, offshore Argentina and the ultra-deepwater Xerelete, Brazil.

In terms of market sectors, Infield Systems expects the pipeline market to form the largest share of demand at 33%, of which Brazil is expected the majority share. Key developments anticipated to demand substantial pipeline expenditure during the period include the Lula Central-to-shore line and Cernambi gas field-to-shore installation. The second largest market for operator Capex in the region is expected to be the platform market. Infield Systems currently expects the most capital intensive platform development to be the Lula FLNG; whilst the Jupiter FPSO, to be installed in water depths of 2,187 metres is also expected to demand significant Capex.

The subsea market is anticipated to account for a 30% share of regional Capex during the forecast. The primary fields driving subsea expenditure offshore Brazil include phase 1 of the Franco development and Lula Northeast. Mexico is expected to comprise 3% of the market with key fields including Lakach, which is expected to be completed before the end of 2015. Despite the subsea market being expected to remain overwhelmingly dominated by Brazil, significant expenditure is also expected on a total of six fields offshore Trinidad, whilst Venezuela and the Falkland Islands are also among the countries expected to demand subsea Capex during the period to 2017.
Report Contents

• Executive Summary provides an overview of the Latin American offshore oil and gas market highlighting the main points of the report and identifying the most crucial trends affecting the market.

• Global Market Overview provides an overview of current economic conditions in both developed and emerging markets, oil price trends and field sanction points, offshore production and reserves, as well as key industry trends, including the impact of unconventional and the growth of LNG on the global market.

• Sector Analysis and Forecasts:
  – Fixed Platforms provides an overview of the fixed platform market followed by a detailed discussion of key operators and developments. In-depth analysis of fixed platforms by country, by type (Piled, Gravity/Jack-up, Caisson), by water depth and by weight band is also provided.
  – Floating Production Systems contains a market overview as well as a detailed forecast for the FPS market, including Capex and number of installations by operator, by country, by type (Piled, Gravity/Jack-up, Caisson), by water depth and by build. Key developments are also discussed.
  – Subsea includes a sector overview as well as a detailed forecast for the Subsea market, including Capex and number of installations by operator, by country, by sector (Equipment, Drilling & Completion) and development type (Subsea Tree, Subsea Separation, Manifold, bOOSTER pUmp, Plet), and by water depth. Key developments are also discussed.

Why You Should Buy This Report

• The report contains data developed by Infield Systems’ market modelling process, OFFPEX, which is based on a unique “bottom up approach” to forecasting. OFFPEX’s component by component and project by project forecasting process is robust and has a proven track record.

• The reader is given a comprehensive presentation of the offshore market in the Latin American region with commentary and detailed analysis covering the macro economic climate right through to analysis by country and operator in terms of both Capex and number of units forecast to be installed.

• Detailed sector analysis appraising the variances in regional and country drivers for the Latin American offshore oil and gas market, providing insight into the trends expected within the market over the next five years.

Global & Regional Perspectives Market Reports

Infield Systems publishes a range of market reports covering various aspects and regions of the oil, gas, renewable energy and associated marine industries. Utilising comprehensive in-house project databases, industry models and research capacity these reports are widely used by industry analysts and professionals:

• Deep & Ultra-deepwater
• Subsea
• Pipelines & Control Lines
• Fixed Platforms
• Floating Production Systems
• Offshore LNG
• Specialist Vessels & Accommodation
• Subsea Well Intervention
• Remotely Operated Vehicles
• Africa
• Arctic
• Asia
• Australasia
• Europe
• Latin America
• Middle East & Caspian
• North America

About This Report

Number of Pages: 258
Number of Figures: 271
Number of Tables: 87
EXECUTIVE SUMMARY
MACRO MARKET OVERVIEW
- Introduction
- Global Economic Update
  - Developed Economies
    - Eurozone
    - United States
    - Japan
  - Emerging Markets
    - China
    - India
    - Brazil
- Oil Markets
  - Short Term Price Dynamics
  - Long Term Price Dynamics
  - Base Case Scenario
  - Oil Glut Scenario
  - Commodity Super-Cycle Scenario
- Gas Markets
  - A New Demand Trajectory
  - The Retreat of Nuclear Power
  - The Internationalisation of Gas Markets
- Field Sanction Points
- Production Cost Curve
- Oil Companies & Contractors
  - Oil Companies
  - Oilfield Services
  - Drilling
  - Fabrication Yards
- Offshore Production & Reserves
  - Undeveloped Oil & Gas Reserves
  - Undeveloped Oil Reserves
  - Undeveloped Gas Reserves
- Key Trends
  - Deepwater
  - Harsh Environment

LATIN AMERICA FIXED PLATFORMS
- Market Overview
- Operators
- Key Developments
- Fixed Platforms by Country
- Fixed Platforms by Type
- Fixed Platforms by Water Depth
- Fixed Platforms by Weight

LATIN AMERICA FLOATING PRODUCTION SYSTEMS
- Market Overview
- Operators
- Key Developments
- FPS by Country
- FPS by Type
- FPS by Water Depth
- FPS by Build

LATIN AMERICA SUBSEA
- Market Overview
- Operators
- Key Developments
- Subsea by Country
- Subsea by Sector
- Subsea by Water Depth

LATIN AMERICA PIPELINES & CONTROL LINES
- Market Overview
- Operators
- Key Developments
- Pipelines by Country
- Pipelines by Type
- Marginal Developments
- SURF vs. Conventional Field Developments
- Growth in LNG
- Impact of Unconventionals
  - Shale Gas
  - Tight Oil
- Pipelines by Water Depth
- Pipelines by Material
- Pipelines by Diameter
- Control Lines by Country
- Control Lines by Type

LATIN AMERICA DEEP & ULTRA-DEEPWATER
- Market Overview
- Operators
- Key Developments
- Deepwater Development by Country
- Deepwater Platforms
- Deepwater Subsea
- Deepwater Pipelines
- Deepwater Control Lines

LATIN AMERICA SPECIALIST VESSELS
- Market Overview
- Pipe lay Market
  - Regional Demand (Vessel Days)
  - Regional Supply (Units) and Contract Awards
- Heavy Lift Market
  - Regional Demand (Vessel Days)
  - Regional Supply (Units) and Contract Awards
- Multifunctional Market
  - Regional Demand (Vessel Days)
  - Regional Supply (Units) and Contract Awards
- Accommodation Market
  - Regional Demand (Vessel Days)
  - Regional Supply (Units) and Contract Awards

APPENDICES & NOTES
- Defined Regions/Countries
- Glossary, Acronyms & Abbreviations

Online Database
Purchasers of the Regional Perspectives Offshore Latin America Oil and Gas Market Report To 2017 receive 12 months access to a database of fields being planned or considered for development in the current year and four years forward, offshore Latin America, via the InfieldLive Data Portal. InfieldLive is continually updated and purchasers receive the following information about each offshore field:
- Field Operator
- Project Name
- Development Type
- Date / Year On Stream
- Date / Year Discovered
- Numbers of Subsea / Surface Wells
- High Temperature / High Pressure
- Reserves
- Field Production Rates
- Location
- Development Type
- Water Depths
- Project Status
- Depletion Date / Year
- Depletion Date /Year
- Project Status
- Water Depths

InfieldLive Service Overview
- A three user single site licence for a period of 12 months
- Access to the latest published data set
- Unlimited access to the data through InfieldLive
- Ability to download the complete data sets to MS Excel, MS Access etc. or to interrogate the information online and export
- Support, assistance and advice on getting the most from your InfieldLive access

InfieldLive Upgrades
The complimentary InfieldLive access can be upgraded to include other regions’ future fields on-stream 2013-2017 as shown below:

<table>
<thead>
<tr>
<th>Fields 2013/17</th>

Fax Order Form:

To order the *Regional Perspectives Latin America Oil and Gas Market Report To 2017*, please complete the fax order form below or buy online at www.infield.com.

For reports supplied electronically with a single user licence, the file is locked to a single user on a single computer with a single print to hard copy. Additional printed and bound single user electronic copies may be purchased for use within a single organisation.

Infield Systems uses the LockLizard system to control the distribution and copyright of reports supplied as single user licence and you must be able to install LockLizard viewer and the LockLizard licence key which requires administrator rights. If you are not able, or permitted, to install the viewer or licence key then please contact Infield Systems.

The InfieldLive Offshore Latin America Data Set online access may be upgraded to include other regions and data sets, prices are available upon request.

All prices shown below are exclusive of VAT which will be charged at the prevailing rate, where applicable.

Infield Systems accepts payment by bank transfer, credit card (Visa, MasterCard or American Express) or by cheque. Delivery is upon receipt of payment. For credit card purchases please supply the card’s billing address along with the billing Post Code/Zip Code and the four digit security code on the front of American Express cards, or the three digit code on the reverse of MasterCard and Visa cards. All European Union companies must supply their EU VAT number.

By purchasing this document, your organisation agrees to Infield Systems Limited’s Standard Terms and Conditions of Business and your organisation will not copy, or allow to be copied, in part or whole or otherwise circulated in any form any of the contents without prior written consent and specific permission from Infield Systems Limited. Our standard terms and conditions are available either upon request or at Infield.com

---

**Single User Licence**
- Two single user electronic licences, each with a single print (hard copies available as an alternative upon request)
- A three user licence to an online InfieldLive projects database (see overleaf)

**Additional Single Licence**
- Insert the number of additional licences required
- Printed copy / Electronic copy (delete as appropriate)

**Corporate User Licence**
- Two printed and bound copies
- A PDF copy of the report for use within your organisation, unlimited users and unlimited prints to hard copy
- Corporate user licence to an online InfieldLive projects database (see overleaf)

**InfieldLive Upgrades**

*About Infield Systems*

Infield Systems is an independent energy research and analysis firm that is dedicated to the provision of accurate and up-to-date data, market reports, mapping, analysis and forecasts for the offshore oil and gas and associated marine industries. Infield Systems also prepares market due diligence on mergers, acquisitions and transactions for clients in the energy industry. Infield Systems services clients in over 40 countries, including E&P companies, contractors, manufacturers, government agencies and financial institutions, and is widely acknowledged as the definitive independent source for information, research and analysis on the offshore energy sector.

Infield Systems has developed a variety of business tools to help companies make business decisions, all of which are supported by direct access to consultants, senior analysts and support staff:

- Offshore Energy Databases
- Marine Databases
- OFFPEX Market Modelling & Forecasting
- Mapping & GIS
- Energy Sector Market Reports
- Bespoke Forecast Reports
- Supply & Demand Models
- Market Due Diligence
